Skills

- **Languages:** Swift, Objective C, Python
- **Technologies & Tools:** Xcode, SwiftUI, Combine, Claude, Figma, Git, GitLab, Firebase, GCP, REST, GraphQL

Work Experience

Spotify – Lead iOS Developer

07/2022 – Present

- Led a team of 6 iOS developers in building Spotify's mobile music streaming platform
- Architected scalable iOS solutions using SwiftUI and the Combine framework
- Implemented real-time audio streaming features and offline playback functionality
- Established development best practices and conducted technical interviews
- Collaborated with product managers and designers to define technical requirements

Uber Technologies – Senior iOS Developer

01/2020 – 06/2022

- Developed critical features for Uber's iOS app serving millions of users worldwide
- Implemented real-time location tracking and mapping functionality using Core Location
- Optimized app performance and reduced crash rates by 40% through systematic debugging
- Mentored junior developers and established iOS development standards and best practices
- Collaborated with backend teams to integrate RESTful APIs and handle complex data flows

Apple Inc. – iOS Developer

06/2016 – 12/2019

- Developed and maintained core iOS applications using Swift and Objective-C
- Collaborated with cross-functional teams to deliver high-quality user experiences
- Implemented advanced iOS frameworks, including Core Data, Core Animation, and UIKit
- Optimized app performance and memory management for iOS devices
- Participated in code reviews and mentored junior developers

TechStartUp Inc. – Junior iOS Developer

07/2014 - 06/2016

- Built iOS applications from concept to App Store deployment using Swift and Xcode
- Collaborated with senior developers to implement user interface components and features
- Participated in agile development processes, including daily standups and sprint planning
- Gained hands-on experience with iOS frameworks, including UIKit, Core Data, and networking
- Contributed to codebase improvements and bug fixes in a fast-paced startup environment

Education

Software Engineering M.S.

Stanford University

09/2012 – 06/2014

Computer Science B.S.

Stanford University

09/2008 – 06/2012

Interests

- **Austin's Veracruz All Natural jackfruit carnitas tacos**

The only vegan tacos that make me forget they're not actually meat.

- **Skiing at Snowbird's Mineral Basin**

Nothing beats the view from the top when you're taking a break from debugging iOS memory leaks.

- **Collecting vintage Apple devices**

I have a working Apple IIe that I use to remind myself how far mobile development has come.
